## About me

I'm a frontend web and mobile developer passionate about crafting seamless digital experiences. I've worked on student and staff management systems, fintech apps, music platforms for artists and investors, and eCommerce sites all with a focus on performance, accessibility, and clean, responsive design

## Experience

### Symphony Enterprise

2025

#### Lead Frontend Developer

Led frontend development for a web app connecting music artists with investors. Built clean, responsive interfaces and collaborated with backend developers to deliver a smooth user experience

### Finbic Group

2025

#### Mobile Developer

Contributed to the development of a fintech mobile app by building efficient and user-friendly features. Partnered with cross-functional teams to deliver reliable and high-performance solutions for financial services.

### Center Point Network

2024-2025

#### Frontend Developer

Built a web-based ERP system for managing students and staff. Designed intuitive interfaces and collaborated with the team to implement scalable modules that streamlined institutional workflows

### Savieztech

2025

#### Web and Mobile App Developer

Collaborated on various projects, including ecommerce platforms, delivering responsive and user-focused web and mobile applications
